

# Everywoman's Health

**Brenda Kehoe, M.D.**

## Medical Philosophy

I believe in every woman's right to choose her own path, including making her own health care decisions; and I believe every woman owes it to herself to provide the best possible landscape for good health.

I believe that every woman deserves access to the best possible care, and that includes time devoted to education and understanding of the issues that matter to her. I believe that no one has all the answers, certainly not me, but I will do my best to gather information and share it with my patients.

## Areas of Medical Interest

- Minimally invasive surgery
- State of the art surgical techniques and materials
- Alternative approaches to traditional hysterectomy
- Menopause
- Overall physical fitness and emotional well being

- New techniques and technology to combat urinary incontinence

## Personal Information

Married 30 years, we have a marvelous family life. Volleyball, singing, hiking are things we enjoy together. I speak Spanish, and have studied other languages, including Portuguese, Navajo, German, Malay, French, Italian, Turkish and Thai, but do not speak them.
